**Introduction
to Computing**

Are you a 'babe in the woods' when
it comes to computing? Here's a
book written just for you — in language
you can understand! Cat B-7200.

ONLY \$9.95

**VZ-200 Technical
Manual**

Want to get the most from your VZ-200? This
technical manual explains all the ins and outs,
ups and downs. For the real computer enthusiast
or beginner who wants to know more. Cat B-7204.

JUST \$9.50

First Book of Programs

Tried, trusted and true programs for your VZ-200.
There's something for everyone — and remember,
they're all written in BASIC so you can save them
on cassette. That means you'll only have to key
them in once, to use them anytime! Cat B-7202.

ONLY \$6.95

Giant Book of Programs

Okay, you've worked your way through the basics
and you're ready for more. If you are interested in
Board games, Adventures, Simulations, Dice,
Space and Brain games, then this book is for you.
179 pages of fun for your VZ-200. B-7210

& games software**

SPEED READING*

Ideal for improving reading and
comprehension skills—written by an
experienced Australian primary school
teacher! Cat X-7257.

TYPING TEACHER

Even if you're a complete newcomer,
this program will quickly get you familiar
and confident with the keyboard.
Cat X-7258.

ELEMENTARY GEOMETRY*

Not too strong on geometry? This
program should help. It uses a friendly
explanation/quiz approach. Cat X-7256.

STATISTICS 1

A great introduction to the basic
principles of statistical analysis. Tests
your knowledge with examples! Cat X-7251.

STATISTICS 2*

Following on from Stat. 1, this program
views more advanced concepts (eg: the
Chi square test). Cat X-7252.

MATRIX*

Working out mathematical matrices can
be a real chore. Use this program to
help develop your skills. Cat X-7253.

TENNIS/GOLF LESSON*

Challenge your computer to a game of
tennis or golf. It plays by the rules, so
you'll learn about the game. Cat X-7254.

*Requires 24K of memory

only \$169!

With all the personal computers around these days, you're probably wondering which one is the best value.

Before you buy any computer, take a look at three things: its power (or usefulness), its back-up and its price/future.

The Dick Smith VZ-200 features an 8K Microsoft BASIC, PLUS an additional 8K 'enhancements'. Compare that to the Tandy MC-10! And it has 8K user memory inbuilt: compare that to the VIC 20!

The Dick Smith VZ-200 is backed, of course, by the Dick Smith Electronics organisation. Complete technical and service facilities, program development, etc — all guaranteed.

The Dick Smith VZ-200 sells for only \$169 — the first personal colour computer in Australia to sell below \$200! There are many other computers now being unloaded around this figure — but be careful! Some companies have already gone broke and others may be drastically reducing prices just to clear dead stock! You could be buying an 'orphan'!

look at these exciting ways to expand your system

Low-Cost Colour Monitor

Don't want to tie up the family's colour TV? This high quality, 36cm colour video monitor gives bright, crisp pictures — sound too! Cat X-1195.

\$389

Electronics

Apple IIe compatibility... but half the price! That's The CAT. It's the best of both worlds: the very latest and most powerful hardware, plus the ability to run a very broad range of tried-and-proven software. And because we import direct, there's no middleman to force up the price. It really is outstanding value for money. Again from EA: "If you want a machine which is compatible with the Apple II and which is supported by a reputable dealer, the CAT with emulator is good value". Check the CAT out at your nearest Dick Smith Computer City. It purrs.

Cat X-7500

\$699

That's far less than half the price of the Apple with similar features!
